Potential Error Found in Background Concentration Used in 2035 PM10 Hot-spot Conformity Analysis: I-70 East Project FEIS

Hi Tim,

Just wanted to check on something – below it says that the monitor at Alsup was used, but I thought it was Commerce City. I'm attaching an email you sent in June and the meeting notes from Atkins that you sent on 12/22/16.

Let me know – maybe the info below needs to be updated?

Tim:

Below are ranked top values for the Welby, Alsup Elementary and Denver Visitor Center monitors. I did not include other monitors in the urban area (CAMP, La Casa, Denver Animal Shelter, Tri-county Health) because they have less than daily data (generally 1 in 6 days or 1 in 3 days), have incomplete data over the 2011-2016 time frame (3 or fewer years) and/or have lower values than the ones shown.

The locations are shown below the table.

Richard
